

Application No. 09/966,900  
Response to Final Office Action

Customer No. 01933

**R E M A R K S**

Reconsideration of this application, as amended, is respectfully requested.

The Examiner's allowance of claims 1-5, 7-9, 12-23 and 27 and the Examiner's indication of the allowability of the subject matter of claims 10 and 11 is respectfully acknowledged.

Claim 7 has been amended to properly depend from claim 1, and claim 10 has been amended to more clearly recite the feature of the present invention whereby the identification of the one of the items of position data stored in the name storing means is based on a plurality of the items of image picking-up position data stored in the picked-up image storing means in association with the items of picked-up image data of the group.

No new matter has been added, and no new issues with respect to patentability have been raised which would require further consideration on the merits and/or a new search.

Accordingly, it is respectfully requested that the amendments to claims 7 and 10 be approved and entered under 37 CFR 1.116.

It is respectfully submitted, moreover, that amended claim 10 and claim 11 depending therefrom are in full compliance with the requirements of 35 USC 112, and it is respectfully requested that the rejection thereunder be withdrawn.
